

FANMFS - Series Silent Mixed Flow Inline Duct Fan

Details Show

Low-profile fan body with beautiful lines

High performance hydromechanical fan blades

Ultra quiet design with two-layer sound absorbent and sound wave holes

Special design of joint to facilitate installation and dismounting;
Double diameter connection

Backdraft damper designed inside to prevent insects

Easy installation and maintenance

Description

- Fan body is made of environmental protection material with beautiful lines and light weight, double insulation.
- Fan blade is designed according to hydromechanical principle to reach the optimal airflow and air pressure, high efficiency working, low energy consumption and low noise.
- Fan inside produced with two-layer sound absorbent and sound wave holes, to reduce noise level.
- Double diameter connection, sealing-up, leak-proof and shockproof.
- Backdraft damper designed inside, to prevent return air and insects.
- Special design of joint to facilitate installation and dismounting; easy installation and maintenance.
- Outer rotor motor inside, with Japanese brand NMB ball bearing, long working life over 50000 hours.
- Protection class: IP44
- Can be designed with user friendly features such as time delay, temperature sense, humidity sensor or other customized functions.
- Operating temperature range: -20°C ~60°C
- This series fans offers solution to ventilation problems, especially in places where people work and live and low sound level is required, such as meeting room, office, hotel, public place, residence, hospital, gym and etc.
