

FANSL - Series Axial Exhaust Fan

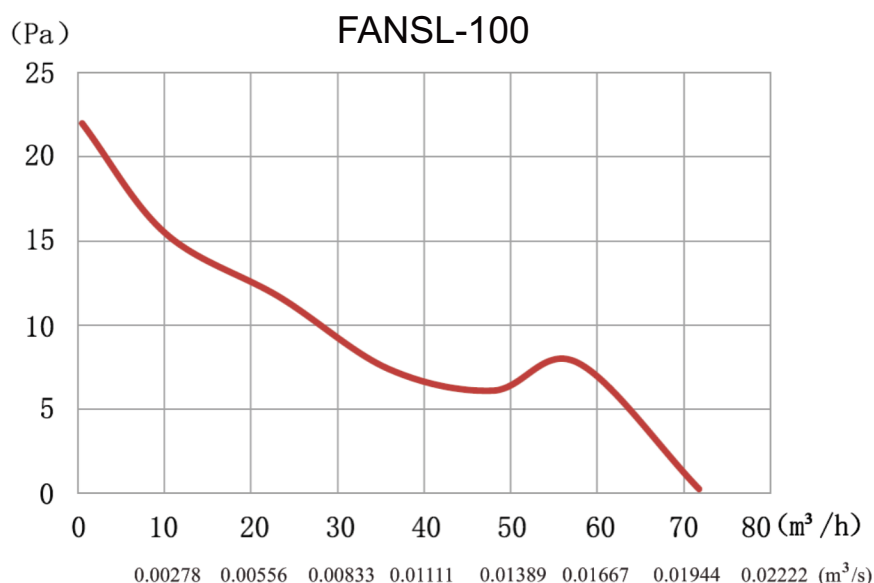

Features

- Modern design and good looking.
- Fan frame and blade are made of high-quality durable ABS plastic, UV resistant.
- Fan blade design makes it high efficiency working and long working life.
- Fan designed with ultra thin front panel and insect screen.
- Fan with reliable low-watt motor, continuous operation.
- Protection class: IP34.
- Mounting
 - The fans are directly mounted into the ventilation shaft.
 - In case of remote location of ventilation shaft, connect a flexible air duct to the fan with a clamp.
 - Fix the fan to wall by self-tapping screws.
 - Suitable for ceiling mounting.
- Applications: Continuous or periodic exhaust ventilation area such as bathroom, showers, kitchens and other spaces.

Smart silent exhaust fan

It's a smart silent exhaust fan which can adjust speed automatically by according to sensing the changes on environmental temperature, humidity and air VOC value.

Function

- Automatically switch to high or low speed, standard setting mode accordingly to learning environmental temperature, humidity and air quality VOC value change.
- Automatically switch to high or low speed accordingly to sensing environmental temperature, humidity and air quality VOC value change.
- Delete environmental temperature.
- Detect environmental humidity.
- Detect air quality VOC value.
- Automatically determine the high or low speed switching timing.
